ABOUT ME

I am seeking an end-of-studies internship to pursue an internship in AI R&D.
Looking for offers in NA, Germany or Swiss.
Preferably in applications related to robotics

ACADEMIC PROJECTS

DQN implementation - Reinforcement Learning
Python - Pytorch, Wandb, Gymnasium

Implemented the Deep QLearning from the Nature paper: https://www.nature.com/articles/nature14236

DINOv2 implementation - Computer Vision
Python - Pytorch, Wanb

Currently implementing the DINOv2 paper from Meta AI

MLOPS/Chatbot - End-of-studies project
Python - OpenAI API, FastAPI, Docker, Pinecone

Added AI-powered features to a learning platform for l'Ecole Polytechnique (transcript, subtitles, summaries etc.)
Creating a fine-tuned bot to help students.

EXPERIENCE

Full Stack Developer
THEGAME

Development of a mobile app with a backend API using React Native, Expo
Delivered multiple tickets and 3 new pages for the internal website.

EDUCATION

EPITA - SCIA 2024
2019-2024

Software Engineer curriculum with a focus on AI.
Subjects:

- Deep Reinforcement Learning
- Data Science
- Computer Vision
